SMART-JET® BLUE

- Self-contained thermal ink jet (TIJ) printer
- 3.5"/8.9 cm Built-In Touchscreen LCD Display and Bluetooth Remote Keyboard
- Full-featured software, including text, date, time, expiry date, images, graphics, and full range of bar code and 2D symbologies
- Ideal for Primary Packaging, Date Coding, Track and Trace Applications

The MSSC Smart-Jet® BLUE is a compact, rugged, fully featured industrial ink jet printer designed for a wide range of coding and marking applications. With built-in Ethernet, you can easily connect the printer directly to a PC or on a wired network for quick access to create messages and monitor production. Featuring HP45 TIJ technology, the Smart-Jet BLUE offers a large catalog of inks, including water-based, solvent, invisible, and UV curable, for any coding and marking application you may have. The built-in 3.5”/89 mm LCD display delivers increased legibility for easy control and operation.
